To Whom It May Concern,

24th April 2014

ROHSII Directive 2011/65/EC, WEEE, REACH DIRECTIVES – Full Compliance

Viper Performance silicone rubber products are fully compliant with the Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment (RoHs) regulation contained in Article 4(1) of the European Parliament and Council's Directive 2011/65/EC. RoHS mandates that manufacturers restrict the use of lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyls, polychlorinated biphenyls, and polybrominated diphenyl ethers in electrical and electronic equipment.

Viper Performance silicone rubber products are also fully compliant with the Registration, Evaluation, and Authorization of Chemicals (REACH) regulation (European Union 1907/2006) and our products do not contain any of the chemicals identified as Substances of Very High Concern (SVHC) by the European Chemicals Agency (ECHA), which oversees REACH compliance.

Signed on behalf of Viper Performance Hoses Ltd,

Daniel Momcilovic
